HASEEB AHMAD

Electronics & Computing Student | Python | AI & Machine Learning

Location: Begumpura, Lahore, Pakistan | **Phone:** 03339475686
Email: haseebivars7864@gmail.com | **GitHub:** github.com/haseeb-ahmad7864 | **Kaggle:** kaggle.com/haseebkhan7864

PROFILE

Motivated third-semester Electronics and Computing student at Superior University with an interest in Python programming, artificial intelligence, machine learning, and practical software projects. Has hands-on academic project experience building classification and recommendation applications using machine learning and deep learning tools.

EDUCATION

Superior University

Bachelor of Science in Electronics and Computing System (BS ECS) | 3rd Semester

TECHNICAL SKILLS

Programming: Python (Intermediate), C++ (Basic)

Machine Learning: Random Forest, TF-IDF, classification, content-based recommendation

Deep Learning: Convolutional Neural Networks (CNN)

Tools & Platforms: Streamlit, GitHub, Kaggle

ACADEMIC PROJECTS

CineMatch — AI Movie Recommendation System

- Built a content-based movie recommendation system using TF-IDF and the TMDB 5000 dataset.
- Created an interactive recommendation interface with Streamlit.

Live demo: Open app | **GitHub:** Repository

SMS Spam Detection — Random Forest

- Developed an SMS spam classification model using TF-IDF features and a Random Forest classifier.
- Achieved 97.87% accuracy on the project evaluation.

GitHub: Repository | **Kaggle:** Notebook

Skin Cancer Classification — CNN

- Trained a CNN image-classification model using the HAM10000 skin-lesion dataset.
- Worked with seven lesion categories and created a Streamlit image-upload interface.

Kaggle profile: View profile (project notebook link not yet added)
